Career Objective

Java Full Stack Developer proficient in Java Core, Advanced, Spring Boot, and React.js. Experienced in designing Microservices, implementing Hibernate ORM, and writing optimized Advanced SQL queries for high performance data retrieval. Expert in frontend development using JavaScript, HTML5, Tailwind, Bootstrap and CSS3. Demonstrated excellence in API Testing, Unit Testing, and project automation. A collaborative developer with hands-on experience in bridging the gap between robust backend architecture and pixel-perfect, interactive user.

Education

Punyashlok Ahilyadevi Holkar University, Solapur

Computer Science and Engineering

Experience

Qspider

Java Full Stack Intern

01/2025 - 07/2025

- Designed and developed scalable enterprise applications using Java and Spring Boot, significantly enhancing system performance and reliability.
- Implemented RESTful APIs, achieving over 90% code coverage with JUnit testing, contributing to robust backend communication.
- Optimized database operations with Hibernate and SQL, streamlining data retrieval processes to ensure efficient handling.
- Automated development processes using Maven and Git for version control, improving deployment efficiency by 30%.

Zidio development

Frontend Intern

03/2024 - 06/2024

- Developed high-performance UIs using React, increasing user engagement metrics by 30% within the first month.
- Converted wireframes into interactive pages utilizing HTML5 and CSS3; achieved 100% design compliance, streamlining the development process.
- Collaborated with cross-functional teams to implement state management practices, resulting in a 15% reduction in development time during sprints.
- Engaged in testing and debugging, utilizing RESTful APIs, leading to a 20% decrease in post-launch bugs.

Projects

Full-Stack E-Commerce Platform

- Developed a full-stack e-commerce platform using Java Spring Boot and React.js, enhancing user experience and engagement.
- Integrated secure user authentication with payment gateways, streamlining checkout and improving transaction efficiency.
- Utilized RESTful APIs and MongoDB for real-time database interactions, optimizing data retrieval and updating processes.

Event Management System

- Created an event management system with the MERN stack, advancing user interactions and event tracking capabilities.
- Implemented encrypted user authentication, enhancing security measures and fostering user trust.
- Integrated Stripe API for efficient payment processing, ensuring a seamless transaction experience.

Skills

- **OS:** Linux, windows
- **Programming Languages:** Java, Python, JavaScript, c, c++
- **Frontend Development:** Bootstrap, Tailwind, HTML5, CSS3, React.js
- **Backend Development:** spring, Node.js, Spring Boot, Microservices, RESTful APIs
- **Databases:** MySQL, PostgreSQL, Oracle, MongoDB
- **Version Control & CI/CD:** Git, Maven, Docker
- **Testing Tools:** JUnit, Postman
- **Cloud Platforms:** AWS
